

Full Metal **Ginger**

Written and played by Anna De Franceschi

Music and soundscape Michele Moi

Artistic consultant Susi Danesin

Production Stivalaccio Teatro/Mondo Roerso

Visual show in silent play

Running time: about 25 minutes

Public: max 60 people

The performance deals with the typical day of an atypical person: Ginger, a daily life clown, who adapts herself to modern life. Ginger lives daily life moments and battles to win a place in the world. Our heroine faces rhythms and situations imposed by modern society with her irreverent and naif style. The performance lasts 25 minutes and uses the techniques of the clown, mime and slapstick, with many references to Chaplin and Lewis. The settings are created only by the soundscape which the public can hear only

through their headphones. The show is in fact a total and immersive experience that brings the public directly INSIDE the story. It has different levels of interpretation, adapted to children and to adults.

Will our heroine Ginger survive the wear and tear of modern life?

We will discover it only laughing at her and, a little bit, at ourselves.
